Education

Data Science

Maryville University of Saint Louis | 2019-09-15 - 2020-12-14

M.Sc.

https://www.maryville.edu/

Computer Science

Fontbonne University of Saint Louis | 2014-01-14 - 2018-12-14

B.Sc.

https://www.fontbonne.edu/

Certificates

Microsoft Power BI Data Analyst

Coursera | 2024-08-13

- Completed the Microsoft Power BI Data Analyst program, gaining proficiency in transforming data into actionable insights and creating compelling reports and dashboards.

- Mastered key Power BI concepts including data modeling with Star schema, DAX calculations, and advanced data analysis techniques.

- Applied hands-on skills in preparing data for analysis in Excel and Power BI, enhancing data-driven decision-making capabilities.

- Engaged in learning how generative AI tools and techniques are utilized in business intelligence.

- Prepared for and earned a 50% discount voucher towards the PL-300 Microsoft Power BI Data Analyst Certification Exam.

Tableau Trading Dashboard

Coursera | Aug 2024

- Course dashboard analyzing AMGN stock with Dow Jones as a comparison index.

Google Advanced Data Analytics

Coursera | 2024-05-01

- Gained ability in advanced data analysis techniques, including statistical modeling and data visualization.

- Applied Google Cloud tools and technologies for comprehensive data analysis solutions.

Data Visualization with Python

IBM on Coursera | 2023-11-01

- Use Python libraries like Matplotlib and Seaborn for compelling data storytelling.

- Craft various charts like line, area, histograms, bar, pie, box, scatter, and bubble.

- Produce waffle charts, word clouds, regression plots, and map visualizations.

- Build interactive dashboards with Dash and Plotly, featuring diverse chart types.

Business and Data Analyst

SDA Simplilearn | 2021-11-01

- Mastery of data analytics tools and techniques for practical business application.

- Ability to work with SQL databases, and program with R and Python for data analysis tasks.

- Skills in creating insightful data visualizations and applying predictive analytics.

- Hands-on experience through industry-based projects, enhancing job readiness.

Publication

Machine Learning Classifiers Help to Manage COVID-19 Distribution in China

The International Journal of Computational Science, Information Technology and Control Engineering (2023). Linked record is the Research Square preprint. | Journal: 2023; Research Square preprint: 2022-08-18

Co-authored with Jasmine Wei, Yao Mingxuan, Taiping Ye, Eli Snir, and Bahareh Rahmani. The study used K-means clustering and regression across 329 Chinese cities from March to June 2020. All small clusters with high infection rates were in Hubei.
